

## City of Missoula -Notice of Increase Sewer Rates

Effective January 1, 2012, the City Council approved a 5% sewer rate increase.

The increases are necessary:

- to provide sufficient revenues to replace aging infrastructure and equipment at the treatment plant, increase future capacity and minimize odors,
- to extend sewer lines to further protect our drinking water and our rivers and streams, and
- to cover general operating cost increases for utilities (natural gas, electricity, solid waste disposal) and chemicals used to process and reuse bio-solids.

Please call the City of Missoula Utility Billing Department at 406-552-6119 or 406-552-6111, if you have any questions.

Customer Class	Sewer Use Fee	Administrative Charge	Effective 01/01/2012 Total Charge
