Summary Description and rationale of project and funding sources:							
<p>Project funds provide for purchase of land and building to serve as a new Parks Operation site and building(s) inclusive of necessary improvements to make the facility function for the intended new uses. Costs are gross estimates at this time as site and its requirements are not identified. Existing Park operations at 100 Hickory provide 10,4000 square feet of interior space plus an additional 2100 feet for the woodshop. The existing land areas used by and for Park Operations is 4.2 acres. Park District would fund replacement of existing facilities and grounds inclusive of any remodeling or security needs.</p>							
History & Current Status: Impact if Cancelled or Delayed							
<p>The existing Park Department operations site at 100 Hickory site is required to be vacated to enable the property to return to park and outdoor recreational uses per the McCormick Park Master plan and the LWCF conversion process. Additionally, the existing building and facilities are over 50 years old and are marginal to house the increased staffing, equipment, and work spaces to support a growing city and its park and recreation system. Proposed initial funding is for acquisition, subsequent year funding is for remodel, improvements, and moving.</p>
