Summary Description and rationale of project and funding sources:

The proposed project provides for cyclical asphalt trail maintenance including limited replacement of the worst asphalt segment of connecting trail (access to restroom), and ADA access ramp upgrades if/as needed. The project improves the quality of the trail tread for a safer and improved user experience and supplies much needed cyclical maintenance to extend the useful life of the paved trails running through the park. Transportation Alternatives Pavement Preservation funding is available for this project.

History & Current Status: Impact if Cancelled or Delayed

Kiwanis Park and the trails through it are heavily used and see some of the highest use volumes in the system. Grant funds have been awarded by MDT and accepted by the City. Cancellation or delay will lead to continued deterioration of trail conditions. Project scope and costs will increase over time if not funded. Well maintained trails optimize the benefits for community and environmental health, reducing carbon emissions, promoting equity, and helping with cost of living.

Are there any site requirements/ Potentially Affected Interest (PAI) Coordination:

Parks and Recreation will work with Downtown Association, Heart of Missoula Neighborhood, and UM to minimize disruption of trail and park users. - primarily through scheduling for construction in summer months.
